Notes : 1. Population figure relates to mid year.

2. Production figures relate to the agricultural year July-June: 1961 figures correspond to the production of 1960-61 and so on for subsequent years.

3. The net availability of foodgrains is estimated to be gross production [-] seed, feed and wastage, [-] exports[+] imports, [+/-] change in stocks.

4. The net availability of foodgrains divided by the population estimates for a particular year indicate per capita availability of foodgrains in terms of kg/year. Net availability, thus worked out further divided by the number of days in a year i.e., 365 days gives us net availability of foodgrains in terms of grams/day.

5. Figures in respect of per capita net availability given above are not strictly representative of actual level of consumption in the country especially as they do not take into account any change in stocks in possession of trader, producers and consumers.

6. For calculation of per capita net availability, the figure of net imports from 1981 to 1994 are based on imports and exports on Government of India account only. Net import from 1995 are, however, based on the total exports and imports (both Government as well as Private accounts).

RE: Revised Estimates BE: Budget Estimates

<sup>a</sup> For 1965-66, includes ₹ 53 crore as additional payments to IMF, IBRD, IDA & ADB following the change in the par value of the rupee. This is a nominal outlay as it is met by the issue of non-negotiable Government of India securities.<sup>b</sup> From 1993-94 onwards, Delhi is not included.<sup>c</sup> From 1997-98 onwards loans to States/UTs are exclusive of loans against States/UTs shares in small saving collections.

RE: Revised Estimates BE: Budget Estimates

- Notes:
- Gross capital formation in this table includes loans given for capital formation on a gross basis. Consequently domestic capital receipts include loan repayments to the Central Government.
  - Consumption expenditure is the expenditure on wages and salaries and commodities and services for current use.
  - Interest payments, subsidies, pension etc. are treated as current transfers.
  - Gross capital formation & total expenditure are exclusive of loans to States'/UTs' against States'/UTs' share in the small savings collection.
  - The figures of total expenditure of the Central Government as per economic and functional classification do not tally with figures given in the Budget documents. In the economic and functional classification, interest transferred to DCUs, loans written off etc, are excluded from the current account. In the capital account, expenditure financed out of Railways, Posts & Telecommunications' own funds etc, are included.
  - Point contribution refers to contribution of individual component to total growth.

PR: Partially Revised. P: Preliminary ... : Nil or Negligible <sup>a</sup> Commercial borrowings includes short term credit.

Note: 1. Grants received are covered under item 4(a).

2. Estimated interest accrued and credited to NRI deposits during the year has been treated as notional outflow under invisible payments and added as reinvestment in NRI deposits under banking capital.

3. In accordance with the recommendations of Report of the Technical Group on Reconciling of Balance of Payments and DGI&amp;S Data on Merchandise data on gold brought out by the Indians returning from abroad have been included under Import payments with contra entry under Private Transfer Receipts. Data has, therefore, been revised from 1992-93 i.e. since the inception of the scheme.

4. In accordance with the provision of IMF's Balance of Payments Manual (5th Edition), gold purchased from the Government of India by the RBI has been excluded from the BOP statistics. Data for the earlier years has, therefore, been amended by making suitable adjustments in "Other Capital-Receipts and Foreign Exchange Reserves". Similarly, item "SDR Allocation" has been deleted from the table.

5. With effect from 1996-97, private transfer receipts include redemption in rupees of both principal and interest under Non-Resident External (Rupee) Account [NRE(R)A] and Non-Resident Non-Repatriable Rupee Deposit [NR(NR)RD] schemes. This marks an improvement in data reporting.

6. The presentation of balance of payments statistics in the above table differs from the adjusted balance of payments statistics published in the previous issues of the Economic Survey.

7. Totals may not tally due to rounding off.
