Notes:

RE: Revised Estimates

BE: Budget Estimates

\* : Figure could not be furnished beyond BE (2015-16) as they are under consistency check.

- Gross capital formation in this table includes loans given for capital formation on a gross basis. Consequently domestic capital receipts include loan repayments to the Central Government.
- Consumption expenditure is the expenditure on wages and salaries and commodities and services for current use.
- Interest payments, subsidies, pension etc. are treated as current transfers.
- Gross capital formation & total expenditure are exclusive of loans to States'/UTs' against States'/UTs' share in the small savings collection.
- The figures of total expenditure of the Central Government as per economic and functional classification do not tally with figures given in the Budget documents. In the economic and functional classification, interest transferred to DCUs, loans written off etc. are excluded from the current account. In the capital account, expenditure financed out of Railways, Posts & Telecommunications' own funds etc. are included.
- Point contribution refers to contribution of individual component to total growth.
