## Document search

Union Budget App presents 14 documents. These documents are presented in PDF format. These PDF files are *text-based* PDF, meaning that they retain the text and formatting of the original. Union Budget App documents are searchable PDFs. User can search PDF documents upon using the “search” functionality in document.

## Download and Printing documents

- User can easily download a PDF on his/her phone by clicking download option provided in menu present at top right corner of PDF viewer.
- PDF viewer also supports searching, and zoom in and out option of the content.
- User can print the document by attaching his/her mobile with nearby Wi-Fi printer.
- Alternative approach of printing document is to download the document by clicking download option from top right menu and then transferring PDF file through USB 2.0/3.0 cable to PC.
- In case USB device is not available or does not work, they can send the document to their email. For it, Long press the document and click send. A chooser dialog will open, from which user can select email app to send the document to his/her Mail Ids. User can now open email from PC and take print from there.
