INTRODUCTORY NOTE

The document is organised into two parts: Part A-Receipts and Part B-Asset and Liability statements.

Part A contains abstract of all types of receipts alongwith their break-ups and explanatory notes. There are statements on Tax, Non Tax Revenue and Capital (Debt and Non Debt) Receipts. Considering huge quantum of resources devolved to States as their share in Union taxes, the state-wise estimates of devolution for BE (2021-2022), RE (2020-2021) and Actuals (2019-2020) are given in Annex 4, 4A and 4B respectively. These statements greatly help States in planning their finances and also in cash management.

Part B contain statements of different types of assets and liabilities with a view to present an overall financial position of Government. The statements on Annuity Projects, Arrears of Non Tax Revenue, Tax revenue raised but not realised, Assets and Guarantees, as mandated under FRBM Rules, 2004 are also included. The statements are prepared on the basis of inputs given by Ministries/Departments.

The various dimensions of Debt profile of Government of India are indicated by statements on assets and liabilities in Part B. These statements give a comprehensive perspective to the quantum and structure of Debt liability of the Government.

Actuals for 2019-2020 are provisional.

Department of Telecom collects recurring licence fees from various Telecom Service Providers licensed by it. The licence fee is levied at 8% of the Adjusted Gross Revenue (AGR) after the allowable deduction like Public Switched Telecom Network (PSTN) charges, Roaming charges passed on to eligible/entitled service providers and Sales Tax/ Service Tax passed on to the State/Central Government from its total revenue figures as appeared in the audited accounts of the company.

For telecom networks licenced for Captive use and Captive Mobile Radio Trunking Service (CMRTS) licences, the licence fee is levied at fixed rates depending upon the number of terminals, channels and / or networks capital cost. In addition one time Entry Fees is also collected from the new operators.

The main category of services include (i) Basic Service, (ii) Cellular Mobile Telephone Service (CMTS), (iii) Unified Access Service (UAS), (iv) Unified License, (v) International Long Distance (ILD), (vi) National Long Distance (NLD), (vii) Internet Service Providers (ISP), (viii) Commercial CUG VSAT License, (ix) Public Mobile Radio Trunk Services (PMRTS), (x) Captive Mobile Radio Trunk Services (CMRTS), (xi) GMPACS License, (xii) Resale of IPLC License.

The license fee is collected based on the percentage share of the Adjusted Gross Revenue (AGR) from Telecom Service Providers, which includes a component of Universal Access Levy (UAL). The collection of licence fee depends on the rate of license fee, tariff and growth of the telecom service sector in the country.

The department also collects license fee for possession of wireless equipment and royalty for the use of radio spectrum from various entities. The charges levied from service providers are usually referred to as Spectrum charges and are calculated either as a percentage of their Adjusted Gross Revenues depending up on at the quantum of spectrum assigned for their network (Commercial VSAT licence) or at flat rates or on the basis of formulae.

Spectrum Usage Charges are levied by the department from the Telecom Service Providers (Mobile Commercial VSAT etc.) for usage of spectrum and are calculated as a percentage of their Adjusted Gross Revenue (AGR) depending upon the quantum assigned for their network.

1.01. State Governments: Receipts from State Governments are estimated at ₹ 14,497 crore in RE 2020-21 and ₹13,000 crore in BE 2021-22.

1.02. Union Territories (With Legislature): The recoveries are in respect of loans advanced to the Union Territory of Puducherry and NCT of Delhi.

2. Miscellaneous Capital Receipts: These include receipts on account of disinvestment of part of government equity in central Public sector Enterprises (CPSEs), proceeds from strategic disinvestment and other such transactions. Government has constituted a 'National Investment Fund' (NIF) into which the proceeds from disinvestment of Government equity in selected CPSEs is channelized. The funds so credited to NIF will be withdrawn and used for financing expenditure on infrastructure project, education, health sectors and investment in Indian Railways towards capital expenditure in 2019-20.

3. Contingency Fund of India: The corpus of the Contingency Fund of India is proposed to be enhanced from ₹ 500 crore to ₹ 30,000 crore in BE 2021-22.

4.01. Market Loans: Government of India raises its market loans under the Scheme of Sale of Dated Government Securities by Auction from 1992-93. These auctions are conducted by the Reserve Bank of India, as debt manager to the Central Government. Apart from Fixed Coupon Securities, Government has also issued Floating Rate Bonds (FRBs) on which the coupon rate, payable semi annually, are reset semi-annually by adding a 'spread', determined through auction. Since 2002-03, Central Government has been announcing half-yearly Indicative Market Borrowing Calendar based on its core borrowing requirements. Details of repayments in 2021-22 are given in Statement No. 6 of Part B. Conversion of Special Securities/ Recapitalisation Bonds. Government of India has completed the conversion of special securities issued in lieu of adhoc treasury bills into marketable securities during the year 2003-04. Details of the marketable securities issued in conversion are given in Statement 2 of Part B. Government of India has also completed the conversion of Recapitalisation Bonds with the Nationalised Banks into SLR marketable securities during the year 2007-08 (details in 2A of Part B).

4.04.01. Gross Borrowing: Borrowing to provide back to back loans to States and UTs for GST compensation shortfall.

4.10. Short Term Borrowings: The Treasury bills offer short-term investment opportunity to Financial Institutions, Banks etc. Primarily, these are issued under the normal auction programme of the Government and also provide option for non-competitive bids. The amount for weekly auction of 91 days, 182 days and 364 days Treasury Bills is notified in indicative quarterly calendar. Central Government also issues 14 days Intermediate Treasury Bills for deployment of short term cash surpluses by State Governments.

5. Securities against Small Savings: The small savings schemes currently in force are: Post Office Savings Account, National Savings Time Deposits (1,2,3 & 5 years), National Savings Recurring Deposits, National Savings Monthly Income Scheme Account, Senior Citizens Savings Scheme, National Savings Certificate, Public Provident Fund, KisanVikas Patra and Sukanya Samriddhi Account. The rate of interest on small savings schemes has been aligned with G-Sec rates of similar maturities, with a certain amount of spread on certain small savings schemes. The spread on National Savings Time Deposit (5 years), National Savings Monthly Income Scheme Account, 5 years NSC, Public Provident Fund is 25 bps, on Sukanya Samriddhi Account, 75bps and on Senior Citizens Savings Scheme, 100 bps over the rate of G-Sec yields of comparable maturities. The interest rates are notified on quarterly basis.

Securities issued against Small Savings: Collections under various small saving schemes, net of withdrawals, during a financial year, form the sources of funds for National Small Savings Fund (NSSF). The net collections are invested in Central and State Government Special Securities, which forms the application of funds under NSSF. For 2020-21, the term of Central and State Government Special Securities is 10 years, without any moratorium at 7.4 per cent interest rate. Redemption proceeds of State Government securities are reinvested in the Central and the State Government Special Securities in the ratio of 50:50, at the prevailing rate of interest, whereas the redemption proceeds of the Central Government Securities are re-invested in Central Government Special securities completely.

As per recommendation of Fourteenth Finance Commission, all the States except Arunachal Pradesh, Delhi, Madhya Pradesh and Kerala have opted out from the operation of NSSF. Arunachal Pradesh is availing 100% and remaining three States are borrowing 50% of net collections mobilised within their respective territories.

Net collections under NSSF are being invested in various Public Agencies like Food Corporation of India, National Highways Authority of India, Air India etc. as well. Interest payment to subscribers of Small Savings Schemes and cost of management constitute the expenditure of the fund and interest on Central Government Securities, State Government Securities

and loan advanced to Public Agencies forms the income of the fund. The sources and applications of NSSF are shown in Annexure 8 and details of various components of NSSF are shown in Statement 3 of Part B.

7.02. Saving Bonds: Floating Rate Saving Bond , 2020 (Taxable) with a lock-in of 7 years was introduced in July, 2020 to enable resident citizens/HUF to invest their savings without any monetary ceiling. The interest on the bonds is payable semi-annually on 1st Jan and 1st July every year with the resetting clause every Six month which is linked with prevailing NSC rate plus 35 bps. The Interest rate for next half-year will be reset on July 01, 2021 and so on. The first reset was carried out on January 01, 2021. There is no option to pay interest on cumulative basis. The bonds are not transferable except transfer to a nominee(s)/legal heir in case of death of the holder of the bonds. They are also not tradable in the secondary market. Premature encashment has been allowed for individual investor in the age group of 60 years and above after minimum lock in period from the date of issue.

7.05.01. International Monetary Fund: India's quota in IMF is SDR 13,114.4 million with a shareholding of 2.75%. India ranks eighth in terms of quota holding at the IMF. India provided for the quota increase as per the 146th General review of Quotas an amount of SDR 7292.9 million in early 2016. This increased holding is maintained in value against any appreciation / depreciation of the Indian rupee. Apart from Quota resources of all members, the IMF employs New Arrangements to Borrow (NAB) and Bilateral Borrowing Agreements (BBA) as its second and third line of resource line for the purpose of non-concessional member lending. India's commitment to NAB is SDR 4,440.9 million of which till date 34 NAB activation have been taken place and the remaining balance to India amount to SDR 290.70 million. With regard to BBA, India has committed USD 10 billion to BBA 2016.

7.05.03. Asian Development Bank and Fund: The Asian Development Bank keeps Rupee securities with the Reserve Bank of India which can be encashed by it to meet its rupee expenditure in India from time to time.

8. External Debt: Budget 2021-22 assumes a gross receipt of ₹ 86,022 crore and repayment of ₹ 40,926 crore, resulting in net external loan of ₹ 45,096 crore.

8.01. Multilateral: The net receipts estimated for BE 2021-22 from International Bank for Reconstruction and Development, International Development Association, International Fund for Agricultural Development, Asian Development Bank, Eastern European Community(SAC), Organisation of the Petroleum Exporting Countries, New Development Bank and Asian Infrastructure Investment Bank (AIIB) is ₹ 24,911.30 crore.

8.01.03. International Fund for Agricultural Development: (a) International Fund for Agricultural Development (IFAD) was set up in 1977 as the 13th specialized agency of the United Nations. It is dedicated to eradicating poverty and hunger in rural areas of developing countries. 176 countries are members of the IFAD, and these are grouped into three countries, comprising List - A - Developed countries, List - B - Oil Producing Countries and List - C - Developing Countries. India is in List C.

(b) India is one of the founder members of International Fund for Agricultural Development (IFAD), and has so far contributed US dollar 171 million towards IFAD resources.

(c) In the 11th Replenishment cycle, India has pledged an amount of USD 40 million as a core contribution. Apart from this, India has also pledged an amount of USD 20 million as Concessional Partner Loan (CPL) (at 1% interest rate for a period of 25 years with a grace period of 5 years) which has been introduced by the IFAD for the first time.

(d) India is a member of the Executive Board of IFAD. India is also a member of two subsidiary bodies of IFADs Executive Board, i.e., Evaluation Committee and Working Group on Transitional Framework.

(e) Since 1979, IFAD has assisted in 30 projects in the agriculture, rural development, tribal development, women empowerment, natural resources management and rural finance sector with the commitment of USD 1100 million (approx.).

(f) For the current Performance Bases Allocation System (PBAS) cycle, i.e. 2019-2021, India has been sought from various Ministries/State Governments. Recently, India has also approved the Country Strategic Opportunities Programme (COSOP) for India for the period 2018-2024. The present COSOP will cover two PBAS cycles: 2019-2021 and 2022-2024.

(g) The Indian Council of Agricultural Research (ICAR)s project proposal titled Scaling up Renewable Energy Based Agricultural Technologies for Empowering Small Holder Farming Families in India has been posed to IFAD on 19th November, 2018 for an assistance of INR 420 crores (Approx. USD 60 million).

(h) Since 1st January, 2018, India is eligible for loans under ordinary terms. IFAD loans granted on ordinary terms shall have a rate of interest per annum equivalent to one hundred percent (100%) of the variable reference rate, as determined semi-annually by the Executive Board of IFAD, and a maturity period of 15 to 18 years, including a grace period of 3 years, starting once the specified disbursement conditions have been met.

(i) From 2013 to 2017, IFAD provided loans to India at on Blend Term at a fixed interest rate of 1.25 percent plus a service charge of 0.75 percent per annum, and with a maturity period of 25 years including a grace period of 5 years. India has signed Megha- LAMP and Andhra Pradesh Drought Mitigation Project (APDMP). However, the projects which were signed up to

2013 IFAD loans are repayable over a period of 40 years including a grace period of ten years and carry no interest charges. However, a service charge at the rate of three-fourths of one percent (0.75%) per annum is levied on loan amounts outstanding.

8.02. Bilateral: The net receipts estimated for BE 2021-22 from Germany, France, Japan, Russian Federation and European Investment Bank (EIB) is ₹ 20,184.70 crore.

**Statement of Revenue Impact of Tax Incentives under the Central Tax System:
Financial Years 2018-19 and 2019-20**

The primary objective of any tax law and its administration is to raise revenue for the purpose of funding Government expenditure. The amount of revenue raised is primarily dependent upon the collective tax base and the effective tax rates. The determinants of these two factors are a range of measures which include special tax rates, exemptions, deductions, rebates, deferrals and credits. These measures are collectively called as 'tax incentives' or 'tax preferences'. They have an impact on Government revenues and also reflect a significant policy of the Government.

The tax policy provides specific tax incentives which give rise to tax preferences. Such preferences have a definite revenue impact and can also be viewed as an indirect subsidy to preferred taxpayers, also referred to as 'tax expenditures'. It is often argued that tax policy should not only be efficient but also transparent. This means that the programme planning which requires specific policy objectives to be addressed using incentives having revenue impact, should be explicit. Further, transparent budgeting calls for inclusion of such indirect outlays (or revenue impacts) under the respective programme headings. Tax incentives resulting in any form of revenue impact per se are spending programs embedded in the tax statute.

The present statement is an analysis of the revenue impact of the tax incentives available under the Central Tax system. Such revenue impact of tax incentives was laid before Parliament for the first time during Budget 2006-07 as Annex-12 of the Receipts Budget by way of a statement of Revenue Forgone. It was well received by all quarters and gave rise to a constructive debate on the entire gamut of issues concerning fiscal policy. It also lent credence to the Government's intention of bringing about transparency in the matter of tax policy and tax expenditures. The second edition of this statement was placed before Parliament during Budget 2007-08 by way of Annexure-12 of the Receipts Budget and also by way of a separate budget document titled "Statement of Revenue Forgone". Thereafter, it was placed every year before Parliament during Budget from 2008-09 to 2014-15. In the Budget 2015-16, it has been termed more appropriately as the "Statement of Revenue Impact of Tax Incentives under the Central Tax System", since what is actually being analysed is the revenue impact. However, it was not part of the Receipt Budget in that year. In Budget 2015-16, it was made part of Receipt Budget as Annexure-15, while in Budget 2017-18, it was Annexure-13. In the Budgets 2018-19, 2019-20 and 2020-21, it was part of Receipt Budget as Annexure-7.

As earlier, this Statement seeks to list the revenue impact of tax incentives or tax subsidies that are a part of the tax system of the Central Government. The revenue impact of such tax incentives has been estimated in respect of most of the "tax preferences". The estimates are for financial year 2018-19, the most recent year for which data is available. An attempt has also been made to project the revenue impact for the financial year 2019-20 on the basis of the tax expenditure figures of the financial year 2018-19.

The estimates of the tax expenditures have been made on the basis of the following assumptions:-

- (a) The estimates and projections are intended to indicate the potential revenue gain in case of removal of exemptions, deductions, weighted deductions and similar measures. The estimates are based on a short-term impact analysis. They are developed assuming that the underlying tax base would not be affected by removal of such measures. As the behaviour of economic agents, overall economic activity or other Government policies could change along with the elimination of the specific tax preference, the revenue implications could be different to that extent.
- (b) The impact of each tax incentive is determined separately, assuming that all other tax provisions remain unchanged. Many of the tax concessions do, however, interact with each other. Therefore, the interactive impact of tax incentives could turn out to be different from the tax expenditure calculated by adding up the estimates and projections for each provision.

Though the revenue impact has been quantified in terms of tax expenditure, it does not imply that this quantum of revenue has been waived by the Government. Rather, these could be seen as targeted expenditure for the promotion of certain sectors. In some cases, the economic and social activities which are incentivized by such indirect subsidy may not have actually been undertaken or may have been much lower in scale in the absence of such incentives. The assumptions and methodology

adopted to estimate the tax expenditure on account of different tax incentives are indicated at the relevant places in this Statement.

Direct Taxes

The Income-tax Act, *inter alia*, provides for tax incentives to promote exports; balanced regional development; creation of infrastructure facilities; employment; rural development; scientific research and development; the cooperative sector, encourage savings by individuals and donations for charity. Accelerated depreciation is also provided as an incentive for capital investment. Most of these tax benefits can be availed of by both corporate and non-corporate taxpayers. This statement attempts to estimate the revenue impact of the tax incentives separately in respect of, Corporate Sector; Non-Corporate Sector (Firms, Association of Persons, Body of Individuals etc.); and Individuals/ HUF Taxpayers. Details of entities engaged in activities having charitable or social purpose have also been provided separately under the head "Charitable Entities". The heads under which the revenue impact has been estimated are broadly similar for the companies and firms etc. However, in the case of individuals, certain other heads have also been included as these are specific to them only. The statement for the corporate sector also analyses the spread of effective tax rates for companies in different profit slabs. A sectoral analysis of effective tax rates has also been attempted.

Financial Year 2020-21 was an extraordinary year during which world economies including India reeled under the effects of COVID-19 pandemic. In order to ease the compliance burden of the taxpayers in view of the ongoing crisis, through Taxation and Other Laws (Relaxation and Amendment of Certain Provisions) Act, 2020, the due dates for filing of income-tax returns for assessment year (AY) 2020-21 was extended to 30th November, 2020. Vide notification no. 88/2020 dated 29th October, 2020, the due dates for filing of income-tax returns was further extended to 31st December, 2020 in case of non-corporate taxpayer as well as taxpayers who are not required to get their books of accounts audited and to 31st January, 2021 in case of corporate taxpayers as well as taxpayers who are required to get their books of accounts audited under section 44AB of the Income-tax Act. Further, vide notification number 93 of 2020 dated 31st December, 2020, the due date for furnishing of income-tax return for AY 2020-21 was again extended to 10th January, 2021 and 15th February, 2021 respectively. Since the due date for furnishing of return for a large number of taxpayers in whose case, revenue impact of tax incentive is maximum has been extended beyond 1st February, 2021, the revenue impact of various incentives during financial year (FY) 2019-20 cannot be ascertained in this statement. Accordingly, revenue impact of various tax incentives for FY 2018-19 based on all the returns filed for AY 2019-20 (including return filed under sub-section (4) and (5) of section 139 of the Income-tax Act) upto 30.11.2020 is presented in this statement and revenue impact of various tax incentive for FY 2019-20 is projected as estimate for FY 2018-19 and using tax growth rate in FY 2019-20.

A. Corporate Sector

Large businesses are mainly organized as companies. The Income-tax Department has received 8,85,289 corporate returns filed electronically up to 30th November, 2020 for the financial year 2018-19 [i.e. assessment year 2019-20]. Every company is required to file its return of income electronically. These companies reported corporate tax liability of Rs.5,00,303.35 crore [inclusive of surcharge and education cess] for their income of financial year 2018-19. They also reported Rs. 45,947.99 crore as Dividend Distribution Tax¹ payable during the financial year 2018-19. They also reported Rs. 1,015.23 crores as tax on buy-back of shares.

For the purposes of estimating the tax expenditure, data pertaining to these 8,85,289 companies was culled from the database for analysis and is detailed in Tables 1 to 5 and Appendix to this statement. **Table 1** profiles these companies across profit ranges. The following facts emerge from an analysis of the data:-

- 4,30,385 companies (48.62 per cent) reported Rs. 17,98,695.39 crore as profits before taxes and a total income² (taxable income) of Rs. 13,70,423.58 crore.
- 4,17,986 companies (47.21 per cent) reported Rs. 10,00,023.70 crore as losses.
- 36,918 companies (4.17 per cent) reported Nil profit.

¹ Through Finance Act, 2020, Dividend Distribution Tax has been discontinued and from 1st April, 2020, dividend is being taxed in the hands of shareholders.

² The term "Total Income", in income-tax returns, represents taxable income as would be implied in common parlance.

The **effective tax rate³ of the entire base of companies reporting profits was 27.81 per cent⁴** for financial year 2018-19 [as against the rate of **29.49** per cent reported in the financial year 2017-18] while the statutory tax rate was 31.20 per cent in case of companies having income up to Rs. one crore, 33.38 per cent in the case of companies having income up to Rs. 10 crore and 34.94 per cent in the case of companies having income exceeding Rs.10 crore resulting in an average statutory rate of 34.58 per cent⁵. Companies with profits before taxes (PBT hereafter) of Rs. 500 crore and above, accounted for a total of 59.30 per cent of the total PBT and a total of 55.25 per cent of the total corporate income-tax liability. The effective rate of 27.81 per cent for the entire base of companies reporting profits, is lower than the effective tax rate of 29.49 per cent in the financial year 2017-18.

The average effective tax rate of companies with PBT greater than Rs. 500 Crore is 25.91 per cent, which is lower than all the companies having profit before taxes below Rs. 500 crores. This highlights that the larger companies are availing the higher deductions and incentives as compared to relatively smaller companies. This is further corroborated by the ratio of total income to PBT. In case of companies having PBT in range of rupees 0-1 crore, the ratio is 93.41 per cent while in case of companies having PBT greater than rupees 500 crore, it is 72.83 per cent. A lower ratio indicates that the larger companies are availing higher deduction and incentives as compared to smaller companies.

* Higher effective tax rate is due to factoring in the taxes paid by companies having zero profit before taxes.

Table 2 profiles the sample companies across effective tax rates. It is noted that 5,42,490 companies with average effective tax rates up to 20 per cent accounted for 22.42 per cent of total profits before taxes, 8.24 per cent of total taxable income and 7.63 per cent of total taxes. In other words, a large number of companies (5,32,805 i.e. 60.18 per cent) contributed a disproportionately lower amount of taxes in relation to their profits. Interestingly, 34,768 companies accounting for 28.19 per cent of the total profits and 38.13 per cent of the total taxes had an effective tax rate closer to the average statutory rate of 34.58 per cent. This shows that the tax liability across companies is unevenly distributed. This is primarily due to the various tax preferences in the statute.

³ Effective tax rate in case of companies is the ratio of total taxes [including surcharge and education cess but excluding Dividend Distribution Tax] to the total profits before taxes [PBT] and expressed as a percentage.

⁴ Effective tax rate including dividend distribution tax was 30.37 per cent.

⁵ Average statutory tax rate has been worked out taking a weighted average of the tax rate of 31.20 per cent in the case of companies having total income upto Rs. 1 crore, of 33.38 per cent in the case of companies having total income upto Rs. 10 crore and 34.94 per cent in the case of companies having total income exceeding Rs. 10 crore. It shall be lower after taking the impact of rate of 25 per cent for certain companies having turnover upto Rs. 250 crore in financial year 2016-17.

Table 3 compares the effective tax rate of public companies (Public Sector Units only) with that of private companies. While the effective rate is lower than the statutory rate for both categories, the private sector companies pay a larger proportion of their profits as tax than the public sector companies.

Table 4 shows a comparison between the effective tax rate of the manufacturing sector and the other sectors in respect of the companies. The non-manufacturing sectors have a higher effective tax rate of 28.17 per cent as compared to manufacturing sector at 27.21 per cent. Both the sectors have an effective tax rate that is well below the average statutory rate of 34.58 per cent.

Table 5 gives details of the major tax expenditures on corporate taxpayers in terms of the tax expenditure during the financial year 2018-19 and projection for the financial year 2019-20. The analysis is based on the corporate returns filed up to 30th November, 2020, which includes all the returns filed for AY 2019-20. The revenue impact of each tax concession availed by these companies has been calculated by applying the average statutory corporate tax rate of 34.58 per cent on the amount of each deduction. The revenue impact of accelerated depreciation, deduction/ weighted deduction for expenditure on scientific research has been calculated by first determining the difference between the depreciation/ deduction debited to the profit and loss account by companies and the depreciation/ deduction allowable under the Income-tax Act. Thereafter, the average corporate tax rate of 34.58 per cent has been applied to this difference to arrive at the tax expenditure figure.

Another aspect of tax expenditure is tax deferral. Tax deferral occurs when the taxpayer, on account of being allowed higher deductions under the tax statute is able to defer his tax liability by claiming an allowance (e.g. depreciation allowance) as a deduction over shorter time period whereas he may be spreading the same depreciation claim over a number of years in his own accounts. As depreciation does not entail cash outgo, this is a tax deferral. On the other hand, the MAT on companies under the tax statute fastens a liability (for the financial year 2018-19, at the rate of 20.90 per cent inclusive of cess and surcharge on book profits), on the profit reported by the company to its shareholders (subject to some adjustments), if this liability is in excess of the tax liability computed at normal rates. The excess liability on account of MAT is allowed as a credit (upto 15 years) in a subsequent year in which the normal tax liability is in excess of MAT liability. The additional tax paid on account of MAT is, therefore, an advance payment of future tax liability. It restricts the period of deferral of taxes on account of claims of depreciation and moderates the revenue impact of other deductions such as profit-linked deductions by spreading the same claim over a longer period of time.

Based on the tax expenditure figures for the financial year 2018-19, the tax expenditure for the financial year 2019-20 has been projected by multiplying the tax expenditure on each tax incentive in the financial year 2018-19 by the corporate tax growth in 2019-20 as per the revised figures. Through Taxation Laws (Amendment) Act, 2019, an option has been provided to the domestic companies (both existing as well as new) to opt for lower rate of taxation subject to the condition that no exemption or incentive is availed by them. As information about the companies availing such option is not available, the effect for such option is not taken into account in this statement.

Table 5 depicts major tax expenditures on corporate taxpayers in terms of tax expenditure during the financial year 2018-19 and projection for the financial year 2019-20.

Net Additional Tax due to MAT		17,778.74	16,418.62
Total Revenue Forgone		1,08,113.04	99,842.06

While the projected tax expenditure figure for financial year 2018-19 (exclusive of additional tax due to MAT payment) was estimated in the last year's statement to be Rs. 1,39,486.12 crore, it has now been actually calculated at Rs. 1,25,891.78 crore. Taking into account, the additional tax collected as a result of MAT, the actual revenue impact of tax incentives is slightly lower at Rs. 1,08,113.04 crore against the tax expenditure of Rs. 1,08,785.41 crore projected in last year statement. Accelerated depreciation is the head under which the highest amount of tax incentive (Rs. 54,414.40 crore) has been given. Across various sectors, deductions availed by units located in SEZ, undertakings engaged in generation, transmission and distribution of power, undertakings engaged in development of infrastructure facilities, specified business (S. No. 4) and deductions on scientific research (S. No. 3) accounted for a significant portion of the total tax incentive.

The industry-wise distribution of effective tax rate of companies is given in the table in the Appendix to this statement. At the lower range, the effective tax rate for Mining of non-ferrous metal ores, except uranium and thorium ores is 14.98 per cent. Similarly, manufacture of textile (other than handloom) and Production, collection and distribution of electricity are also having a lower tax rate of 17.66 and 19.11 per cent respectively which is lower than the effective tax rate. Other sectors which are having lower tax rates as compared to the effective tax rates are Purchase, sale and letting of leased buildings (residential and non-residential) (16.85 per cent), Air transport (18.12 per cent), other agriculture, animal husbandry and forestry (13.18 per cent), other essential commodity services (18.68 per cent).

B. Non-Corporate Sector [Firms/ AOPs/ BOIs etc.]

Apart from the corporate sector, large business is also organised as partnership firms and Association of Persons [AOPs] or Body of Individuals [BOIs]. The tax expenditure on these is not as large as that in case of companies. The Income-tax Department has received 15,45,987 returns filed electronically upto 30th November, 2020 for income of the financial year 2018-19. For the purposes of calculating the tax expenditure, data pertaining to these 15,45,987 Firms/ AOPs/ BOIs was culled out from the database. They account for a substantial part of the tax paid by the universe of Firms/ AOPs/ BOIs in the financial year 2018-19.

The data was analysed and the following facts emerged:-

- The entire firms/ AOPs/ BOIs reported Rs. 2,13,909.08 crore as profits before taxes and declared a total income (taxable income) of Rs. 2,06,591.98 crores. Losses were reported by about 2,81,081 returns which is 18.18 per cent of the total.
- These firms/ AOPs/ BOIs reported Rs. 63,616.66 crore as income-tax payable [inclusive of surcharge and cess] for the financial year 2018-19.

The revenue impact of each tax concession claimed by the firms/ AOPs/ BOIs has been calculated by applying the income tax rate of 31.26 per cent (weighted average rate calculated taking rate of 31.20 per cent for firms having income less than one crore and 34.94 per cent for firms having income more than one crore with the number of taxpayers falling in each tax rate slab) on the amount of each deduction. The tax expenditure on account of accelerated depreciation; deduction/ weighted deduction for expenditure on scientific research has been calculated by first determining the difference between the depreciation/ deduction debited to the profit and loss accounts by firms/ AOPs/ BOIs and the depreciation/ deduction allowable under the Income-tax Act. Thereafter, the income tax rate of 31.26 per cent has been applied to this difference to arrive at the revenue impact of each tax incentive. Based on the revenue impact for each tax incentive for the financial year 2018-19, the revenue impact for the financial year 2019-20 has been projected. The estimation for 2019-20 has been done by calculating the ratio of income-tax collections as per the revised figures 2019-20 to the actual income-tax collected in the year 2018-19 and then applying the same ratio to the tax expenditure on account of each tax incentive in 2018-19.

Table 6 depicts the major tax expenditures on non-corporate taxpayers in terms of tax expenditure during the financial year 2018-19 and projection for the financial year 2019-20. Like financial year 2017-18, the highest tax expenditure continues to be on account of deduction of profits of cooperative societies which accounts for 54.26 per cent of the total revenue impact as compared to 56.27 cent in last financial year. The tax expenditure on account of accelerated depreciation and units setup in SEZs (under section 10AA) were 11.56 per cent and 10.92 per cent of the total revenue forgone, respectively.

The total tax expenditure for non-corporate sector, i.e., Firms/ AOPs/ BOIs for the financial year 2018-19 is worked out to be Rs. 6,804.28 crore.

C. Individual/ HUF Taxpayers

Chapter VI-A of the Income-tax Act primarily provides for deduction on certain payments and deduction on certain incomes. Individual/ HUF taxpayers are eligible to claim these deductions and have a wide range of tax preferences available to them. However, since more than 50 per cent of the individual taxpayers derive their income primarily from salaries, the profit-linked deductions [i.e. deduction on certain business incomes] are not claimed by them. On the other hand, the group of non-salaried individuals claims both types of deductions.

The revenue impact of tax incentives granted to individual taxpayers is presented in Table 7. The tax impact under various sections of Chapter VI-A of the Income-tax Act has been calculated on the basis of various claims for tax preferences in the **6,53,88,044** returns filed electronically by individuals with the Income-tax Department till 30th November, 2020. As discussed earlier, due to the COVID-19 pandemic, the date for furnishing of revised or belated return under the Act was extended to 30th November, 2020. Accordingly, the tax impact under various sections of Chapter VI-A presented in Table-7 below includes all the returns filed by individuals for FY 2018-19 (relevant to assessment year 2019-20). Apart from deductions under Chapter VI-A, the other major tax expenditure on individual taxpayers in the financial year 2018-19 was on account of rebate under section 87A amounting to Rs. 5,212.10 crores, higher basic exemption limit of Rs. 3,00,000 for senior citizens (individuals aged 60 years or more), and enhanced exemption limit of Rs. 5,00,000 for very senior citizens (individuals aged eighty years or more).

Based on the figures of total **6,53,88,044** returns of income, the tax expenditure for the entire population of taxpayers has been prepared as under:-

- (i) impact of higher basic exemption limits, as aforesaid (Sl. No. 26 and 27 of Table 7), has been calculated by multiplying the tax expenditure per senior citizen and very senior citizen with their respective numbers. According to the data of these returns, 10.55 per cent of the returns were filed by senior citizens and 0.62 per cent of the returns were filed by very senior citizens. Further, the revenue impact of higher exemption limit available to senior citizens has been calculated by taking into account the difference between the higher basic exemption limit (i.e. Rs. 3,00,000) as compared to the general exemption limit of Rs. 2,50,000 and applying the lowest tax rate of 5 per cent (plus cess) on the difference. The tax expenditure for each senior citizen is Rs. 2,600 (inclusive of cess). For a very senior citizen, the exemption limit is Rs. 5,00,000 and the tax computed on such income amounting to Rs. 13,000 (inclusive of cess) is payable by an individual who is below the age of sixty years. This has been taken to be the revenue impact for each very senior citizen.
- (ii) Based on the tax expenditure figures for financial year 2018-19, the tax expenditure for the financial year 2019-20 has been projected. The estimation for 2019-20 has been done by calculating the ratio of the personal income-tax collections as per the revised figure for 2019-20 to the actual personal income-tax collected in the year 2018-19 and then applying the same ratio to the tax expenditure on account of each tax incentive in 2018-19 except in the case of rebate under section 87A which has been projected based on the revenue loss estimated in interim budget, 2019.

As detailed above, **Table 7** depicts the revenue impact of major tax incentives for individual/ HUF taxpayers, in terms of tax expenditure, during the financial year 2018-19 and projection for financial year 2019-20.

S. No.	Nature of Incentive	Revenue Impact (In Rs. Crore) [2018-19]	Projected Revenue Impact (in Rs. Crore) [2019-20]
26	Higher exemption limit for senior citizens	1794.00	1,656.75
27	Higher exemption limit for super senior citizens	532.90	492.14
Total		95,376.78	1,06,532.40

The revenue impact of providing a tax incentive for investments in various savings instruments, repayment of housing loan and payment of tuition fees for children [all these come under section 80C of the Income-tax Act] is the single largest tax expenditure in case of individual taxpayers followed by rebate on tax in case of resident individuals having income up to five lakh rupees, deduction on account of health insurance premium (section 80D) and contribution to New Pension Scheme. The tax expenditure on account of higher basic exemption limits for senior citizens and very senior citizens are also significant. As regards profit-linked deductions, the highest tax expenditure is on account of section 80-IA and section 80-IC of the Income-tax Act.

D. Charitable Entities

The Income-tax Act provides for exemptions to various entities including Government funded entities engaged in objects which are charitable in nature. In addition to this, specific exemption is also available to entities engaged in certain activities which satisfy social purposes. These entities receive donations, voluntary contributions and have other incomes from activities which are charitable in nature. The total receipts of such entities are required to be applied for the purposes for which these have been set up. These entities are required to file income tax return. The total number of electronically filed returns of such entities till 30th November, 2020, during the financial year 2018-19 is 2,26,531. The total amount applied by such entities for charitable and religious purposes in India is Rs. 7,35,971.49 crores.

Statement of Revenue Impact of Tax Incentives for Customs Duty for the period 2019-20 and 2020-21 (Estimated)

Customs duty on goods is levied under the Customs Act, 1962 at rates specified in the First Schedule to the Customs Tariff Act, 1975 (commonly referred to as basic customs duty - BCD). Export duty is also levied on certain items at rates specified in the Second Schedule to the Customs Tariff Act, 1975.

2.1 These rates, specified against individual tariff lines in the Customs Tariff Act, 1975, are commonly known as "tariff rates". Further, the Customs Act, 1962 or the Finance Acts concerned delegates powers to the Central Government [under Section 25(1) of the Customs Act, 1962, which is also made applicable to duties levied under various Finance Acts] to prescribe duty rates lower than the Tariff rates, through notifications. The rates, prescribed through such exemption notifications, are referred to as "effective rates".

2.2 Further, exemption notifications issued by the Government can be broadly classified into two types:-

(i) **Conditional exemption notifications; and**

(ii) **Unconditional exemption notifications.**

2.3 Unconditional exemptions prescribe general effective rates of duty for a commodity. This rate applies to all imports of that commodity, without any conditions. **In other words, such unconditional exemptions in effect prescribe MFN rate for a commodity.**

2.4 Conditional exemptions, on the other hand, prescribe effective rates under certain specific circumstances, as against the higher tariff rate or the MFN rate, as discussed above. Such conditional notifications are for specified purposes, for example, to promote domestic manufacturing, defence procurements, etc. In such cases, only those imports, which fulfil conditions prescribed for such rates, are eligible for such effective rates. As such, these exemptions result in revenue foregone vis-à-vis the relevant tariff/ MFN rate.

2.5 Certain exemptions have been provided for procurements of raw materials and inputs that go into the export goods. As such, these exemptions only provide for tax neutralization to exports for zero rating of exports. These concessions, being aimed at zero rating of exports, do not result in revenue foregone on account of BCD concessions. However, concessions granted by way of export linked incentive schemes, in which incentives at the prescribes rate (% of export value) is provided to exporters by way of duty scrips results in revenue foregone as the duty credit available by way of these scrips is set off against the BCD payable on imports.

3. India has entered into Free Trade Agreements, Comprehensive Economic Partnership Agreements, Comprehensive Economic Co-operation Agreements with a number of countries or group of countries. Similarly, India is also a signatory to the Information Technology Agreement I. Under this agreement, India has bound itself for lower rate/exemption on the specified goods as covered under such agreement. These preferential tariffs are also prescribed through notifications issued under section 25 of the Customs Tariff Act, 1962. **Such preferential tariffs extended as part of sovereign commitments, are also general applicable rate for imports covered by such agreements.**

4. **Therefore, as explained above, since the unconditional exemptions and exemptions extended towards sovereign commitments in effect prescribe MFN rates (effective rate) for the commodity concerned, a more appropriate estimation of the revenue impact of tax concessions would be the revenue foregone on account of conditional exemptions only. Further, revenue forgone on account of export linked incentives are also included in the final estimation of Revenue Foregone on account of Basic Customs Duty concessions.**

5. **Revenue impact assessment for the Year 2019-20 and 2020-21 (Estimated):** Estimate of total revenue impact under various exemption notifications is based on the data generated from the Bills of Entry filed by the importers in the Indian Customs Electronic Data Interchange System (ICES) at various Electronic Data Interchange (EDI) locations. Extrapolation has been made to arrive at revenue foregone on account of imports not captured in ICES, which constitute about 95 % and 97% of total imports for the period F.Y. 2019-20 and F.Y. 2020-21 (estimated).

6.1 Based on the above stated methodology, the revenue impact of tax concessions on customs side for the year 2019-20 and 2020-21 (Estimated) works out as under:

Table I: Revenue Impact of Tax concessions on account of Basic Customs Duty

PART B

ASSET AND LIABILITY STATEMENTS

1. DEBT POSITION OF THE GOVERNMENT OF INDIA

The outstanding internal and external debt and other liabilities of the Government of India at the end of 2021-2022 is estimated to amount to ₹ 135,86,975.52 crore, as against ₹ 121,21,959.24 crore at the end of 2020-2021. Broad details are as follows:-

(In ₹ crores)

	As on 31 st March 2021	As on 31 st March 2022
Internal debt and other liabilities	117,39,130.00	131,59,050.28
External debt	3,82,829.24	4,27,925.24
Total	121,21,959.24	135,86,975.52

Internal Debt comprises loans raised in the open market, compensation and other bonds, etc. It also includes borrowings through treasury bills including treasury bills issued to State Governments, Commercial Banks and other Investors, as well as non-negotiable, non-interest bearing rupee securities issued to International Financial Institutions. An analysis of the public debt outstanding at the beginning of the First Five Year Plan and close of each year from 2016-2017 to 2019-2020 and that estimated to be outstanding at the close of 2020-2021 and 2021-2022 is given in the Statement of Liabilities. The amount outstanding under internal and external debt reflects the liability of Government as represented by the book value of the outstanding debt. The outstanding stock of external liabilities is reckoned at historical rates of exchange on which the liability was initially accounted for in the books of accounts after netting the repayments made at current exchange rates.

In addition, Government is liable to repay the outstanding against the various Small Savings schemes, Provident Funds, securities issued to Industrial Development Bank of India, Unit Trust of India and Nationalised Banks, Oil marketing companies, Fertilizer companies, Food Corporation of India and deposits under the Special Deposit Scheme and depreciation and other interest bearing reserve funds of departmental commercial undertakings, etc., deposits of local funds and civil deposits. Details of such liabilities are shown in the Statement of Liabilities.

The position of guarantees given by the Government of India as at the end of 2019-2020, as envisaged under Rule 6 of the FRBM Rules, 2004, is given in the Statement on Guarantees.

A statement of Asset Register as on March 31, 2020 as envisaged under Rule 6 of the FRBM Rules has also been included.

Statement of Assets shows the extent to which the money raised by Government has been utilized for asset formation purposes. These assets are also shown at book value i.e., it does not take into account depreciation/appreciation in the value of assets as per current market rates. This statement includes only assets the ownership of which vests in Central Government, and it excludes assets created by State Governments and non-Government bodies from grant/assistance from Central Government.

Notes:

- Assets above the threshold value of 2 lakh only recorded.
- This disclosure statement does not include assets of Cabinet Secretariat, Central Police Organisations, Ministry of Defence, Department of Space and Atomic Energy as per the Fiscal Responsibility and Budget Management Rules.
- Figures compiled on the basis of Reports of Ministries/ Departments, may be impacted, inter-alia by any ongoing reconciliation/ liquidation/ adjudication/ administrative decision relating to valuation of assets and improvement in capture of data. Variation between closing balance at the end of previous reporting year and opening balance at the beginning of current reporting year is mainly due to Assam Gas Cracker Project being transferred to Ministry of Petroleum and Natural Gas, corrections of entries made by DPIIT, reporting of assets by additional Missions in MEA, revision of assets by the Ministry of Youth Affairs and Sports, etc.
