

**KEY TO BUDGET DOCUMENTS**  
**BUDGET 2003-2004**

**Annual Financial Statement**

Under article 112 of the Constitution, a statement of estimated receipts and expenditure of the Government of India has to be laid before Parliament in respect of every financial year which runs from 1st April to 31st March. This statement titled "*Annual Financial Statement*" is the main Budget document. The Annual Financial Statement shows the receipts and payments of Government under the three parts in which Government accounts are kept: (i) Consolidated Fund, (ii) Contingency Fund and (iii) Public Account.

2. All revenues received by Government, loans raised by it, and also its receipts from recoveries of loans granted by it, form the **Consolidated Fund**. All expenditure of Government is incurred from the Consolidated Fund and no amount can be withdrawn from the Fund without authorisation from Parliament.

3. Occasions may arise when Government may have to meet urgent unforeseen expenditure pending authorisation from Parliament. The **Contingency Fund** is an imprest placed at the disposal of the President to incur such expenditure. Parliamentary approval for such expenditure and for withdrawal of an equivalent amount from the Consolidated Fund is subsequently obtained and the amount spent from Contingency Fund is recouped to the Fund. The corpus of the Fund authorised by the Parliament, at present, is Rs.50 crore.

4. Besides the normal receipts and expenditure of Government which relate to the Consolidated Fund, certain other transactions enter Government accounts, in respect of which, Government acts more as a banker, for example, transactions relating to provident funds, small savings collections, other deposits, etc. The moneys thus received are kept in the **Public Account** and the connected disbursements are also made therefrom. Generally speaking, Public Account funds do not belong to Government and have to be paid back some time or the other to the persons and authorities who deposited them. Parliamentary authorisation for payments from the *Public Account* is, therefore, not required. In a few cases, a part of the revenue of Government is set apart in separate funds for expenditure on specific objects like sugar development, replacement of depreciated assets of commercial undertakings, etc. These amounts are withdrawn from the *Consolidated Fund* with the approval of Parliament and kept in the *Public Account* for expenditure on the specific objects. The actual expenditure on the specific objects is, however, again submitted for vote of Parliament even though the moneys have already been earmarked by Parliament for transfer to the funds.

5. Under the Constitution, Budget has to distinguish expenditure on revenue account from other expenditure. Government Budget, therefore, comprises (i) Revenue Budget; and (ii) Capital Budget.

6. **Revenue Budget** consists of the revenue receipts of Government (tax revenues and other revenues) and the expenditure met from these revenues. Tax revenues comprise proceeds of taxes and other duties levied by the Union. The estimates of revenue receipts shown in the Annual Financial Statement take into account the effect of the taxation proposals made in the Finance Bill. Other receipts of Government mainly consist of interest and dividend on investments made by Government, fees, and other receipts for services rendered by Government. Revenue expenditure is for the normal running of Government departments and various services, interest charges on debt incurred by Government, subsidies, etc. Broadly speaking, expenditure which does not result in creation of assets is treated as revenue expenditure. All grants given to State Governments and other parties are also treated as revenue expenditure even though some of the grants may be for creation of assets.

7. **Capital Budget** consists of capital receipts and payments. The main items of capital receipts are loans raised by Government from public which are called Market Loans, borrowings by Government from Reserve Bank and other parties through sale of Treasury Bills, loans received from foreign Governments and bodies and recoveries of loans granted by Central Government to State and Union territory Governments and other parties. Capital payments consist of capital expenditure on acquisition of assets like land, buildings, machinery, equipment, as also investments in shares, etc., and loans and advances granted by Central Government to State and Union territory Governments, Government companies, Corporations and other parties. Capital Budget also incorporates transactions in the Public Account.

**Accounting classification**

8. The estimates of receipts and disbursements in the Annual Financial Statement and of expenditure in the Demands for Grants are shown according to the accounting classification prescribed under article 150 of the Constitution. This classification is intended to allow Parliament and the public to make a meaningful appreciation of allocation of resources and purposes of Government expenditure.

9. Under the Constitution, certain items of expenditure like emoluments of the President, salaries and allowances of the Chairman and the Deputy Chairman of the Rajya Sabha and the Speaker and the Deputy Speaker of the Lok Sabha, salaries, allowances and pensions of Judges of the Supreme Court and the Comptroller and Auditor-General of India, interest on and repayment of loans raised by Government and payments made to satisfy decrees of courts etc. are charged on the *Consolidated Fund* and are not required to be voted by the Lok Sabha. The Annual Financial Statement shows the expenditure *charged* on the *Consolidated Fund* separately.

**Demands for Grants**

10. The estimates of expenditure from the *Consolidated Fund* included in the Annual Financial Statement and required to be voted by the Lok Sabha are submitted in the form of *Demands for Grants* in pursuance of article 113 of the Constitution. Generally, one Demand for Grant is presented in respect of each Ministry or Department. However, in respect of large Ministries or Departments more than one Demand is presented. Each Demand normally includes the total

provisions required for a service, that is, provisions on account of revenue expenditure, capital expenditure, grants to State and Union territory Governments and also loans and advances relating to the service. In regard to Union territories without Legislature, a separate Demand is presented for each of the Union territories. Where the provision for a service is entirely for expenditure *charged* on the Consolidated Fund, for example, interest payments, a separate *Appropriation*, as distinct from a Demand, is presented for that expenditure and it is not required to be voted by Parliament. Where, however, expenditure on a service includes both '*voted*' and '*charged*' items of expenditure, the latter are also included in the Demand presented for that service but the '*voted*' and '*charged*' provisions are shown separately in that Demand.

11. The Demands for Grants are presented to the Lok Sabha along with the Annual Financial Statement. Each Demand first gives the totals of '*voted*' and '*charged*' expenditure as also the 'revenue' and 'capital' expenditure included in the Demand separately and also the grand total of the amount of expenditure for which Demand is presented. This is followed by the estimates of expenditure under different major heads of account. The break up of the expenditure under each major head between 'Plan' and 'Non-Plan' is also given. The amounts of recoveries taken in reduction of expenditure in the accounts are also shown. A summary of Demands for Grants is given at the beginning of this document, while details of 'New Service' or 'New Instrument of Service' such as formation of a new company, undertaking or a new scheme etc., if any, are indicated at the end of the document.

#### ***Finance Bill***

12. The proposals of Government for levy of new taxes, modification of the existing tax structure or continuance of the existing tax structure beyond the period approved by Parliament are submitted to Parliament through the *Finance Bill*.

13. The Budget documents presented in terms of the Constitution have to fulfil certain legal and procedural requirements and hence may not by themselves give a clear indication of the major features of the Budget. To facilitate an easy comprehension of the Budget, certain explanatory documents are presented along with the Budget.

#### ***Budget at a Glance***

14. The document Budget at a Glance shows in brief receipts and disbursements along with broad details of tax revenues and other receipts. This document also exhibits broad break-up of expenditure - Plan and Non-Plan, allocation of Plan outlays by sectors as well as by Ministries/Departments and details of resources transferred by the Central Government to State and Union territory Governments. This document also shows the revenue deficit, the gross primary deficit and the gross fiscal deficit of the Central Government. The excess of Government's revenue expenditure over revenue receipts constitutes revenue deficit of Government. Government mainly borrows through issue of dated securities, i.e. market borrowings. Apart from this, Government also borrows funds under many schemes which form part of capital receipts. The difference between the total expenditure of Government by way of revenue, capital and loans

net of repayments on the one hand and revenue receipts of Government and capital receipts which are not in the nature of borrowing but which finally accrue to Government on the other, constitutes gross fiscal deficit. Gross primary deficit is measured by gross fiscal deficit reduced by gross interest payments. In the Budget documents 'gross fiscal deficit' and 'gross primary deficit' have been referred to in abbreviated form 'fiscal deficit' and 'primary deficit', respectively.

***Expenditure Budget Vol. 1***

15. *Expenditure Budget Vol. 1* deals with revenue and capital disbursements of various Ministries/Departments and gives the estimates in respect of each under 'Plan' and 'Non-Plan'. This also gives analysis of various types of expenditure and broad reasons for the variations in estimates.

16. Under the present accounting and budgetary procedures, certain classes of receipts, like payments made by one department to another and receipts of capital projects or schemes are taken in reduction of the expenditure of the receiving department. The estimates of expenditure included in the Demands for Grants are for the gross amounts while the estimates of expenditure included in the Annual Financial Statement are for the net expenditure as will be reflected in the accounts, that is, after taking into account the recoveries. The document *Expenditure Budget* makes certain other refinements like netting expenditure of related receipts so that inflation of receipts and expenditure figures are avoided and there can be a better appreciation of the magnitudes of various expenditure. In separate annexures guarantees given by Central Government and outstanding as at the end of March, 2002 and contributions to International bodies are shown. A statement showing the estimated strength of establishment of various Government Departments and provision made therefor is also included in the document.

***Expenditure Budget Vol. 2***

17. The provisions made for a scheme or a programme may spread over a number of major heads in the Revenue and Capital sections in a Demand for Grants. In the *Expenditure Budget Vol. 2*, the estimates made for a scheme/programme are brought together and shown on a net basis at one place, by major heads. To understand the objectives underlying the expenditure proposed for various schemes, programmes, etc., in the Demand for Grants suitable explanatory notes are included in this volume in which, wherever necessary, brief reasons for variations in the estimates are also given.

***Receipts Budget***

18. Estimates of receipts included in the "*Annual Financial Statement*" are further analysed in the document "*Receipts Budget*". The document gives details of revenue receipts and capital receipts and explains the estimates. Trend of receipts over the years and details of External Assistance received are also included.

19. To facilitate understanding of the taxation proposals made in the Finance Bill, the provisions of the Bill are explained in the document titled Memorandum explaining the provisions in the *Finance Bill*.

**Detailed Demands for Grants**

20. The Demands for Grants are followed by the *Detailed Demands for Grants* laid on the table of the Lok Sabha some time after the presentation of the Budget, but before the discussion on Demands for Grants commences. These Detailed Demands for Grants show further details of the provisions included in the Demands for Grants as also of actual expenditure during the previous year. A break up of the estimates relating to each programme/organisation, wherever the amount involved is not less than Rs.10 lakhs, is given under a number of object heads which indicate the categories and nature of expenditure incurred on that programme, like salaries, wages, travel expenses, material and equipment, grants-in-aid, etc. At the end of these Detailed Demands are shown the details of recoveries taken in reduction of expenditure in the accounts. Physical and financial aspects of major programmes and schemes are included in the *Performance Budgets* presented to Parliament separately by the Ministries/Departments.

**Resources transferred to States**

21. The State Governments are provided grants and loans for various Plan and Non-Plan purposes. Besides, sizeable amounts of tax revenues collected by the Central Government are also transferred to the State Governments. Some of the States also get grants to cover the gap in their revenue resources, as recommended by the Finance Commission. The total resources transferred to State and Union Territory Governments are indicated in a statement incorporated in the document *Budget at a Glance*. Further details of these transfers by way of share of taxes, grants-in-aid and loans are given in *Expenditure Budget Vol.1*. Bulk of grants and loans are disbursed by the Ministry of Finance and Company Affairs and are included in the Demand 'Transfers to State and Union Territory Governments', which is presented on its behalf. The grants and loans released by other Ministries/Departments are provided for in their respective Demands.

**Plan Outlay**

22. Plan expenditure forms a sizeable proportion of the total expenditure of the Central Government. The *Demands for Grants* of the various Ministries show the Plan expenditure under each head separately from the Non-Plan expenditure. The Expenditure Budget Vol. 1 also gives the total Plan provisions for each of the Ministries arranged under the various heads of development and highlights the budget provisions for the more important Plan programmes and schemes. A description of important schemes included in the Plan along with the objectives, targets and achievements is given in the *Performance Budget* of the respective Ministry. Variations in the estimates of Plan expenditure are also explained in this document.

**Performance Budget**

23. *Performance Budgets* are prepared and circulated to Members of Parliament by all Ministries/Departments dealing with developmental activities. The Performance Budget presents the budget of the Ministry/Department in terms of functions, programmes and activities and gives appraisal reports separately in

respect of major central sector projects/programmes estimated to cost Rs.100 crores or more. It also includes a statement on the programmes and performance of the various public sector undertakings under the Ministry/ Department indicating, among other things, the capacity installed and utilised, physical targets and achievements, results of operation, return on capital etc. Performance Budget serves the management as a tool of administrative and financial control in the implementation of development programmes.

#### **Public Sector Enterprises**

24. A large part of the Plan expenditure incurred by the Central Government is through public sector enterprises. Budgetary support for financing outlays of these enterprises is provided by Government either through investment in share capital or through loans. *Expenditure Budget Vol. 1* shows the estimates of capital and loans disbursements to public sector enterprises in 2002-2003 and 2003-2004 for Plan and Non-Plan purposes and also the extra budgetary resources available for financing their Plans. A detailed report on the working of public sector enterprises is given in the document titled '*Public Enterprises Survey*' brought out separately by the Department of Public Enterprises. A report on the working of the enterprises under the control of the various administrative Ministries is also given in the Annual Reports of the various Ministries circulated to Members of Parliament separately. The annual reports along with the audited accounts of each of the Government companies are also separately laid before Parliament. Besides, the reports of the Comptroller and Auditor General of India on the working of various public sector enterprises are also laid before Parliament.

#### **Commercial Departments**

25. Railways is the principal departmentally-run commercial undertaking of Government. The Budget of the Railways and the Demands for Grants relating to Railway expenditure are presented to Parliament separately. The total receipts and expenditure of the Railways are incorporated in the Annual Financial Statement of the Government of India. However, to portray the actual working and not inflate either receipts or expenditure, the expenditure as reflected in the Receipts Budget & Expenditure Budget Vol. 1 and 2 has been taken net of receipts. The Demands for Grants of the Department of Telecommunications are presented along with other Demands of the Central Government.

26. The receipts and expenditure of the Defence Department shown in the Annual Financial Statement are explained in greater detail in the document Defence Services Estimates presented along with the Detailed Demands for Grants of the Ministry of Defence.

27. The details of grants given to bodies other than State and Union territory Governments are given in the statements of Grants-in-aid paid to non-Government bodies appended to Detailed Demands for Grants of the various Ministries. Annexure 6 to Expenditure Budget Vol.1 shows details of grants-in-aid exceeding Rs.5 lakhs (recurring) or Rs.10 lakhs (non-recurring) to private institutions, organisations and individuals sanctioned during the year 2001-2002.

### **Annual Report**

28. A descriptive account of the activities of each Ministry/Department during the year 2002-2003 is given in the document *Annual Report* which is brought out separately by each Ministry/Department and circulated to Members of Parliament at the time of discussion on the Demands for Grants.

### **Economic Survey**

29. The Budget of the Central Government is not merely a statement of receipts and expenditure. Since Independence, with the launching of Five Year Plans, it has also become a significant statement of governmental policy. The Budget reflects and shapes, and is, in turn, shaped by the country's economic life. The Economic Survey brings out the economic trends in the country, which facilitates a better appreciation of the mobilisation of resources and their allocation in the Budget. The Survey analyses the trends in agricultural and industrial production, money supply, prices, imports and exports and other relevant economic factors which have a bearing on the Budget.

30. The Budget of the Government has an impact on the economy as a whole. For a better appreciation of the impact of governmental receipts and expenditure on the other sectors of the economy, it is necessary to group them in terms of economic magnitudes, for example, how much is set aside for capital formation, how much is spent directly by the Government and how much is transferred by Government to other sectors of the economy by way of grants, loans, etc. This analysis is contained in the document ***Economic and Functional Classification*** of the Central Government Budget which is brought out by the Ministry of Finance and Company Affairs separately.

### **Appropriation Bills**

31. After the Demands for Grants are voted by the Lok Sabha, Parliament's approval to the withdrawal from the *Consolidated Fund* of the amounts so voted and of the amount required to meet the expenditure *charged* on the ***Consolidated Fund*** is sought through the *Appropriation Bill*. Under article 114(3) of the Constitution, no amount can be withdrawn from the Consolidated Fund without the enactment of such a law by Parliament.

32. The whole process beginning with the presentation of the Budget and ending with discussions and voting on the Demands for Grants requires sufficiently long time. The Lok Sabha is, therefore, empowered by the Constitution to make any grant in advance in respect of the estimated expenditure for a part of the financial year pending completion of procedure for the voting of the Demands. The purpose of the 'vote on account' is to keep Government functioning pending voting of 'final supply'. The vote on account is obtained from Parliament through an Appropriation (Vote on Account) Bill.

### **Statement of Action Taken on Budget Announcements**

33. This contains status of initiatives announced by the Finance Minister earlier.

**INDEX**

	<i>Paragraph Number</i>
