1. Provision is for expenditure on Secretariat of the Department .

2. As indigenous production is not adequate to meet the demand for fertilizers, imports are arranged to make up for the shortfall. The cost involved is broadly the price of imported fertilisers plus the cost of handling and distribution of the fertilisers. The selling price of imported fertilisers to farmers is controlled under the Fertiliser Control Order and the consumer prices are thus statutorily regulated. This selling price is the same as the selling price for indigenous production. The difference between the amount realised by way of sale of fertilisers to farmers and the import costs to Government represents the subsidy on fertilisers imports.

3. Provision is for payment to the manufacturers / agencies under the scheme of sale of decontrolled Phosphatic and Potassic fertilisers at concession to the farmers. The concession would lead to balanced use of fertilisers (NPK) nutrients for better soil health and productivity.

4. This provision relates to subsidy under Fertilizer Retention Price Scheme including freight subsidy for production of urea. The subsidy scheme is intended to make fertilisers available to the farmers at reasonable prices and to give producers of fertilisers a reasonable return on their investment. The fertilisers are sold at issue prices, fixed from time to time under the Fertiliser Control Order.

5. The provision is for S&T work and for development of essential know-how for production of fertilisers.

6. The provision for Non-Plan loans to HFC, FCI, PPCL and BVFCL are intended to enable the companies to meet shortfall in resources. FCI and HFC are sick companies, having been referred to BIFR under SICA. PPCL has stopped all its activities and the Company is under liquidation.
